Options HME Commercial Projects

Planning	Options HME will perform a site visit, take measurements, provide an accurate quote, and provide required drawings.
Safety	The Highlander II and installation methods meet ASME A18.1 Safety Standards for Platform Lifts.
Reliability	A quality installation plays a significant role in the reliability of a lift over the years. The Highlander II is a high quality lift from Harmar with 20+ years of manufacturing experience. Options HME brings 15+ years of experience to your project.
Collaboration	We will work closely with other trades and provide on-site support throughout the site preparation process.
Permits & Inspection	Installation will be completed by a state licensed mechanic. State permits and inspection will be included in the quote and as part of the project.
Warranty	3 Year Limited Parts Warranty 1 Year Limited Labor Warranty
Specifications	750 lbs weight capacity. Up to 14' of lifting height. Optional battery backup. Meets commercial requirements

Since 2007, Options HME has been focused on completing your project on budget and on time. With years of experience, we are able to provide quality lifts that will serve your business for years to come.

Harmar manufactures stair lifts and wheelchair lifts at their facilities in Lake Winnebago, Missouri and Sarasota, Florida.
